## Just For Fun

### **Riddle:**

After teaching his class all about Roman numerals (X = 10, IX=9 and so on) the teacher asked his class to draw a single continuous line and turn IX into 6.

The only stipulation the teacher made was that the pen could not be lifted from the paper until the line was complete.

### **Answer:**

Draw an S in front of the IX and it spells SIX. There was no stipulation that the line had to be straight. ☺
